Something not working?

Here are the most common issues and how to fix them.

MISSING KEY

You are using the wrong or generic SET file. Download your personalised SET from the portal.

WebRequest blocked

Make sure you have added <https://api.tradingsolutions.uk> in MT5 → Tools → Options → Expert Advisors.

NOT SEEN

EA is not connected. Check Algo Trading is ON and your internet connection is working.

ACCOUNT MISMATCH

Your licence is already bound to another MT5 account. Contact support if you need to move it.

EA not visible

Refresh the Navigator panel or restart MT5. Ensure the EX5 file is in the correct Experts folder.

Trading Solutions - B104.9.2 Installation Guide

Page 1

Step 1: Download your two files

Sign in to your Trading Solutions customer account and download the current EX5 and your personalised SET. Your SET contains your licence automatically; do not manually edit the licence key.

EX5: Trading_Solutions_Pro_B104_9_Beta_RC.ex5

SET: TradingSolutions_B104_9_BETA_RC_DEMO.set

EA

Trading Solutions EA
Trading Solutions Pro B104.9.2 One-WebRequest Cloud Connection — version B104.9.2

Download EX5

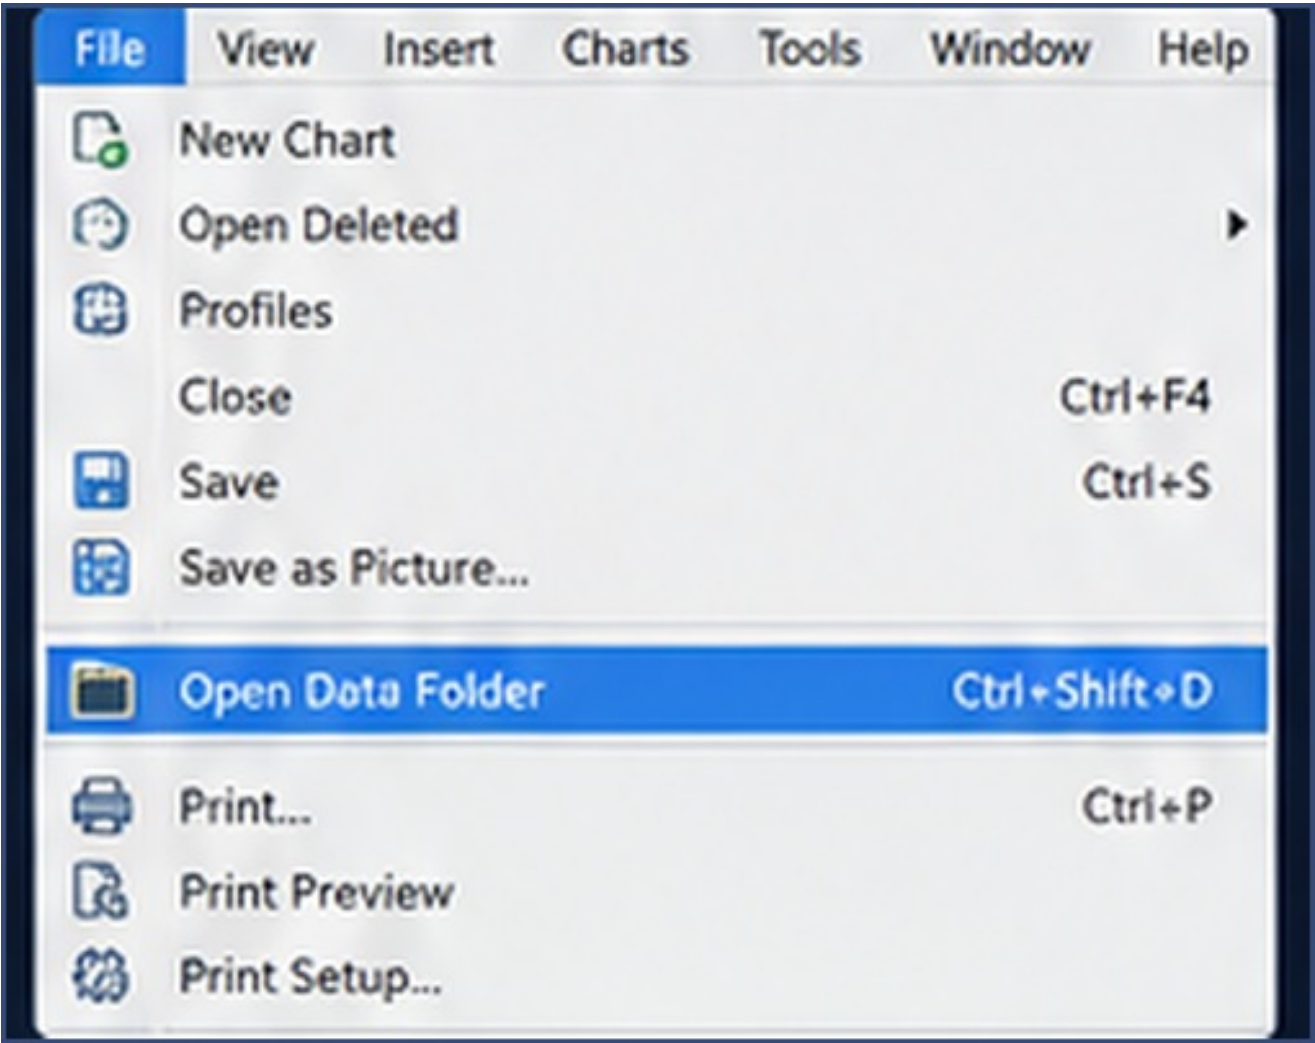

SET

Production preset
Approved settings for the current release.

Download SET

Step 2: Open the MT5 Data Folder

In the Windows desktop version of MetaTrader 5, click File, then Open Data Folder.

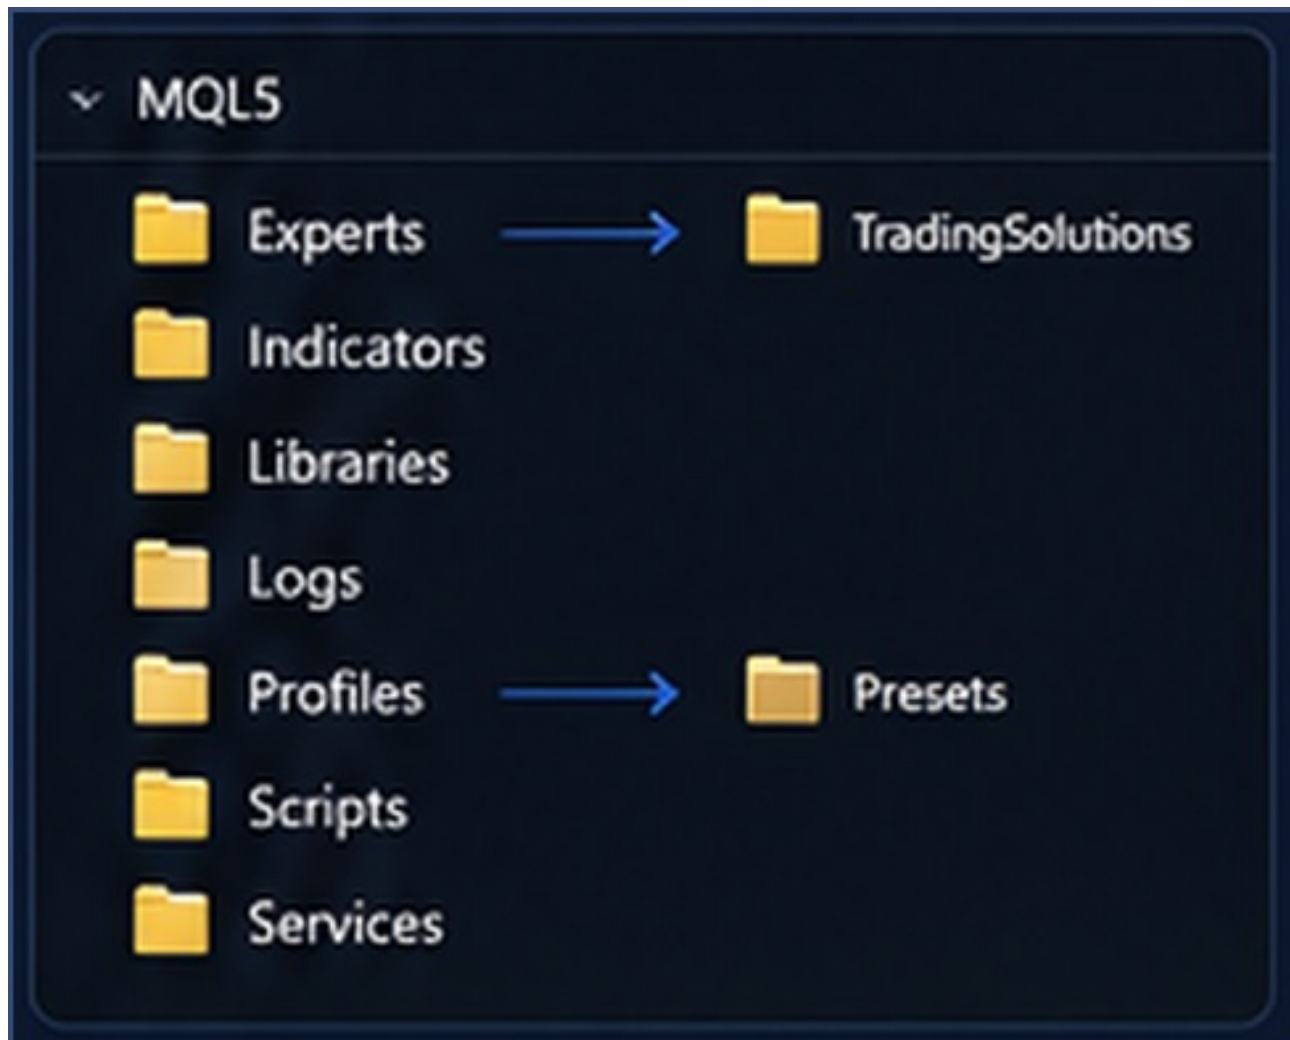

Step 3: Copy the files

Copy the EX5 to MQL5\Experts\TradingSolutions. Copy the SET to MQL5\Profiles\Presets. Then refresh Expert Advisors in Navigator or restart MT5.

EX5 folder: MQL5\Experts\TradingSolutions

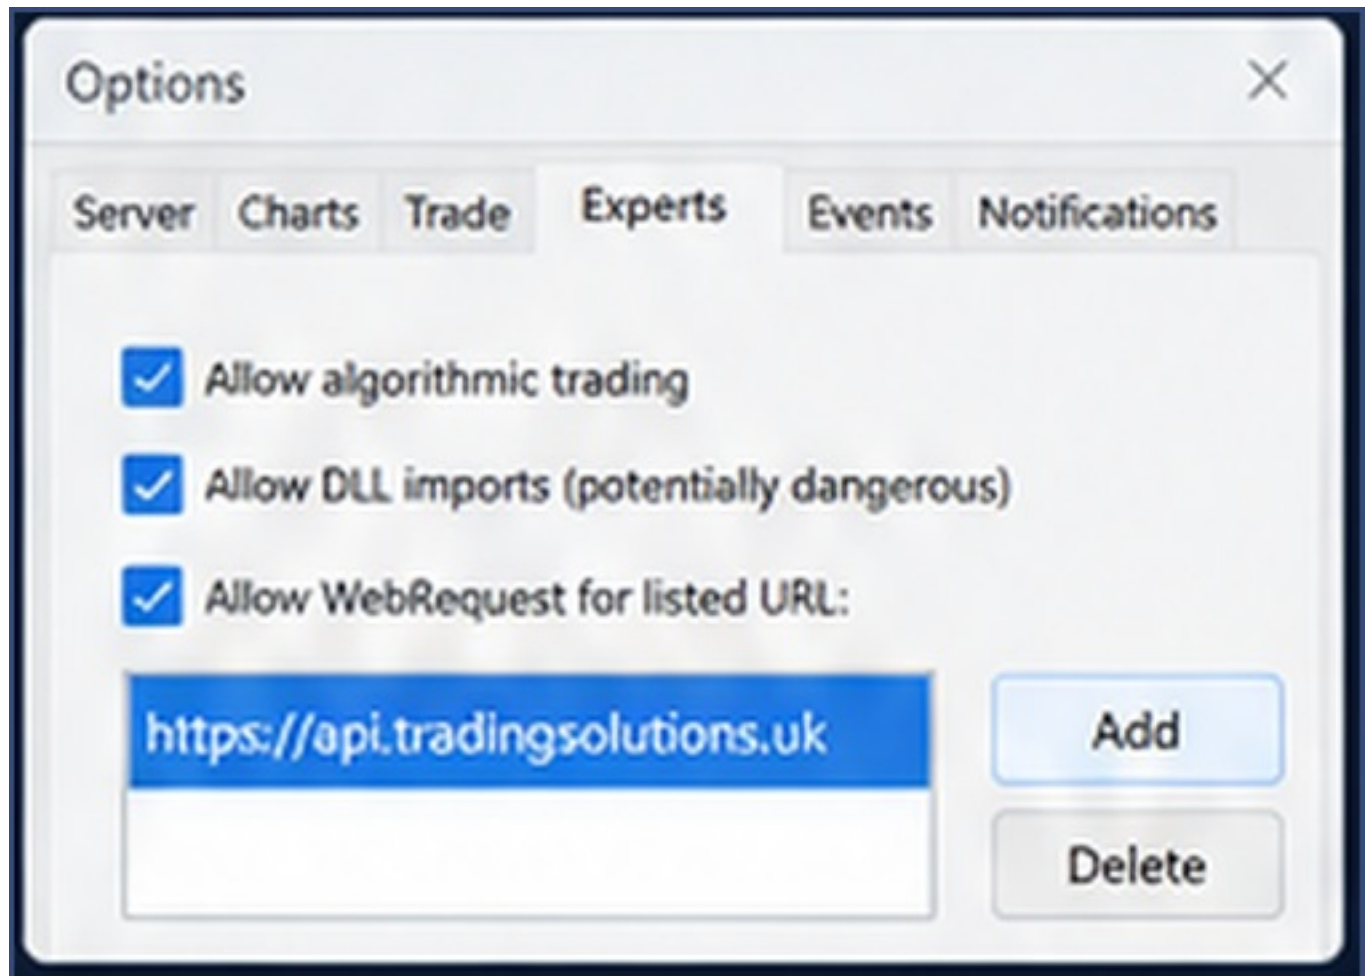

SET folder: MQL5\Profiles\Presets

Step 4: Add the one WebRequest URL

Open Tools > Options > Expert Advisors. Tick Allow WebRequest for listed URL and add only <https://api.tradingsolutions.uk>.

<https://api.tradingsolutions.uk>

Step 5: Open Gold on M5

Open your broker's Gold symbol on the M5 timeframe. The symbol may be XAUUSD, GOLD, XAUUSD.a, XAUUSDm or a similar broker-specific name.

Market Watch: 10:24:17 ×

Symbol	Bid	Ask
+ XAUUSD	2450.12	2450.32
+ EURUSD	1.08234	1.08236
+ GBPUSD	1.26542	1.26545
+ USDJPY	149.215	149.218

Symbols

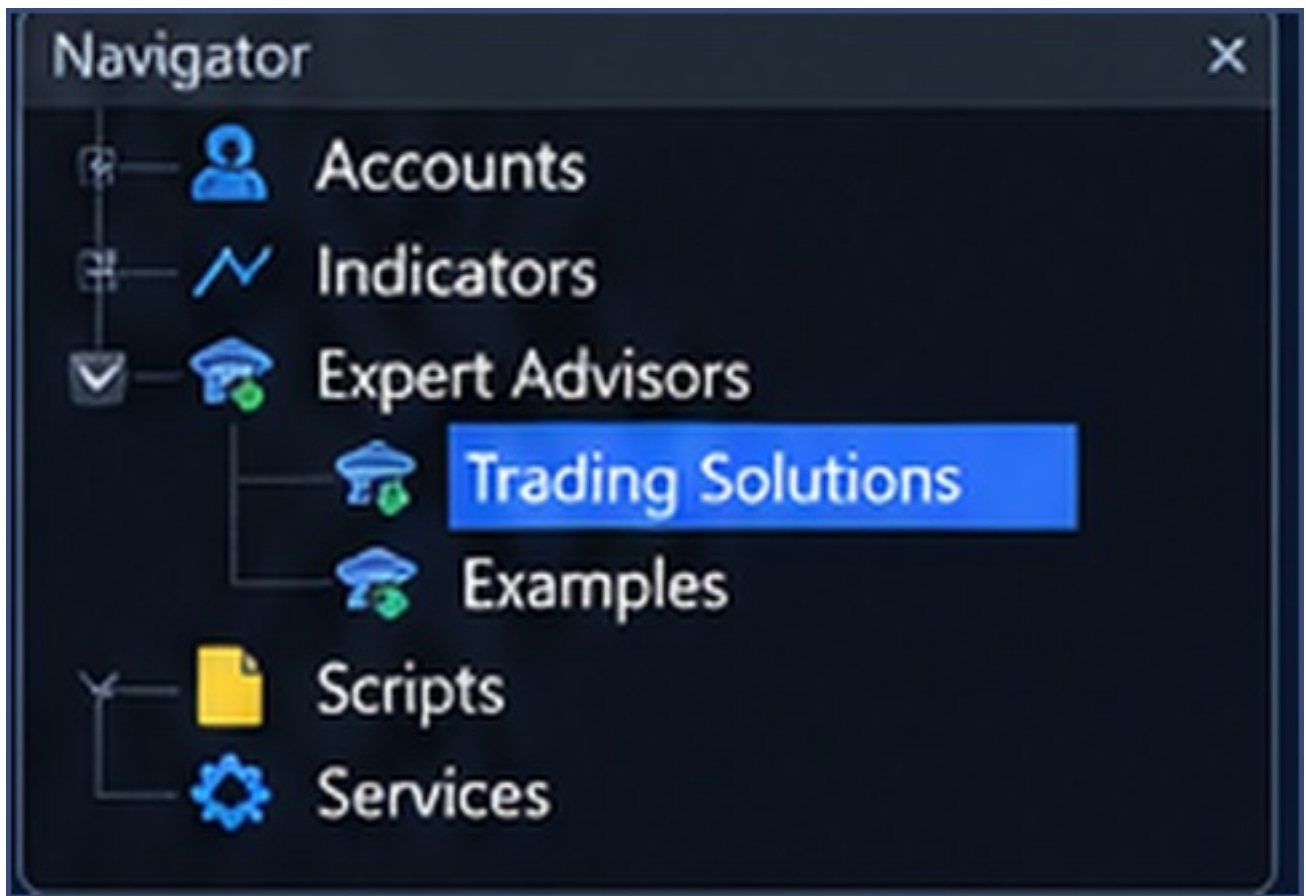

Details

Trading

Ticks

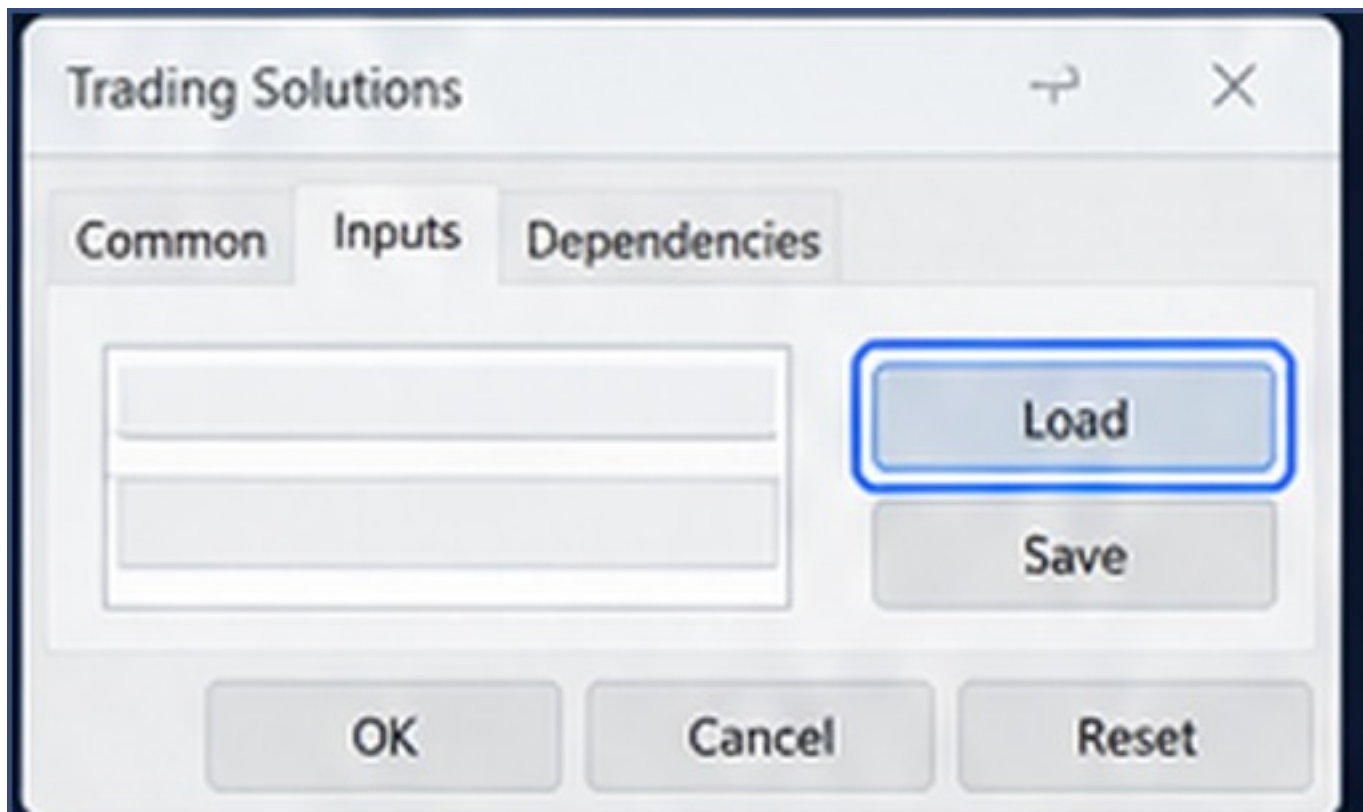

Step 6: Attach Trading Solutions

In Navigator > Expert Advisors, find Trading Solutions and drag it onto your Gold M5 chart, or double-click it.

Step 7: Load your personalised SET

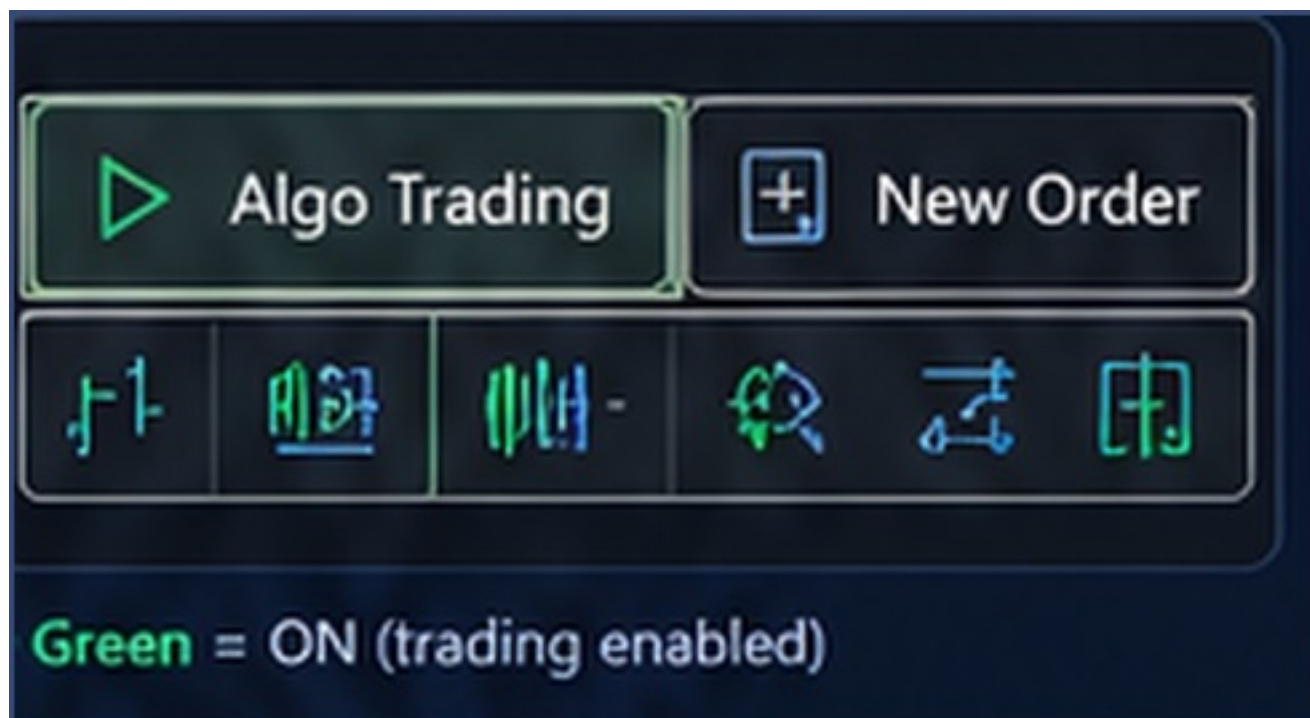

Open the EA Inputs tab, click Load, select TradingSolutions_B104_9_BETA_RC_DEMO.set and click OK. Use the SET downloaded from your own customer account.

Important: if the EA says MISSING_KEY, you are using a generic or wrong SET. Download the SET again while signed into your own customer account.

Step 8: Turn Algo Trading ON

Turn the MT5 Algo Trading button ON and allow algorithmic trading for the EA if prompted. Leave the Gold M5 chart open.

Step 9: Confirm BOUND and ONLINE

Return to your customer portal. MT5 binding should show BOUND, EA connection should show ONLINE and Last Seen should be recent. Heartbeat updates every five minutes.

MT5 binding	Bound	
EA connection	Online	
Last seen	Just now	
Broker	Connected	

If the portal does not show ONLINE immediately, allow up to five minutes for the next heartbeat.

Common installation messages

MISSING_KEY	Download and reload the personalised SET from your own customer account.
WebRequest blocked	Add https://api.tradingsolutions.uk under Tools > Options > Expert Advisors.
NOT SEEN	Check internet access, Algo Trading and that the personalised SET is loaded.
ACCOUNT_MISMATCH	The licence is bound to another MT5 account. Contact support when moving account.
EA not visible	Check the EX5 is in MQL5 > Experts > TradingSolutions, then refresh Navigator or restart MT5.

Before disconnecting from a Windows VPS: MT5 logged in, Gold M5 open, Trading Solutions attached, personalised SET loaded, Algo Trading ON, portal BOUND / ONLINE. Disconnect Remote Desktop without closing MT5 or shutting down Windows.
